

Connect the dots and colour your drawing. Maybe you have already seen it on your way to school!

Pedibus: what is it?

Pedibus is a swarm of children walking back and forth to school under the leadership of an adult. Parents enrolling their children for Pedibus commit themselves at the same time to lead them in turn when needed.

A path of discoveries!

For more than 20 years ATE has been developing Pedibus everywhere in Switzerland to contribute to children's safety and health, but also to promote soft mobility and respect for the environment. Therefore, journeys with Pedibus are unique moments for sharing and observing nature around us: flowers, trees, vegetation, animals, insects ... An opportunity to make startling and fun discoveries every day!

The advantages of Pedibus

- Children's safety and autonomy
- Daily physical activity
- Less pollution
- Friendliness and stronger social cohesion
- Time saving for the parents

It is easy to create a Pedibus line!

1 Involve other parents

Bring interested families together: two are enough to launch a Pedibus line!

2 Contact your Pedibus coordinators

They help you to start the line and provide you with the safety equipment.

3 Define the way it works

Itinerary, stops and rules of your line are decided with the other parents.

Pedibus: how does it work?

It is very simple and it works like a real bus, but on foot.

- Itinerary and timetable are decided according to the families' needs.
- Leaders are parents or trustworthy adults.
- Children join Pedibus at the closest stop, which is indicated by a sign.

Safety equipment and information

Visit www.pedibus.ch in order to obtain additional information and unload or order free equipment!

- Accident and civil responsibility insurance
- Reflective vests and harnesses
- Reflectors
- Stop signs
- Posters and flyers

Your Coordinators

ATE has set up Cantonal Coordination units to guide the parents in the Pedibus adventure. They advise and support you in the creation and keeping of lines.
